OCTOBER 10, 1943.

Section 102.1 (7 F.R. 8377) is rescinded and the following substituted therefor: Headquarters Western Defense Command and Fourth Army, Presidio of California.

To the people within the States of Washington, Oregon and California, and to the public generally:

Whereas the enemy has made attacks upon vessels and land installations along the Pacific Coast, and it is expected that such attacks may be resumed, and it is necessary to provide adequate protection

for shipping and for war utilities, war materials and war premises against attacks by sea and by air; and

Whereas Lieutenant General J. L. DeWitt, Commanding General, Western Defense Command and Fourth Army, issued Public Proclamation No. 1,¹ dated 2 March 1942, reciting certain findings of fact and establishing Military Areas Nos. 1 and 2 within the territory of the Western Defense Command, which recitals and the creation of military areas, including subsequent modifications thereof, are hereby reaffirmed; and also issued Public Proclamation No. 10,² dated 5 August 1942, establishing a Zone of Restricted Lighting within Military Areas Nos. 1 and 2 and providing certain restrictions within said Zone, and Public Proclamation No. 12³ dated 10 October 1943, amending said Proclamation No. 10; and

Whereas, military necessity continues to require regulations for the control of lighting within the zones hereinafter established and in the manner hereinafter provided, but current developments and further investigation indicate the advisability, consistent with military necessity, of modifying in certain respects the lighting restrictions heretofore required by Public Proclamations Nos. 10 and 12;

public proclamation or any orders issued thereunder.

(b) *Establishment of lighting zones.* The following lighting zones within said Military Areas Nos. 1 and 2 are hereby designated and established:

(1) "Lighting Zone A," as particularly described in Exhibit 1 and as generally shown on the map marked Exhibit 2, each attached hereto and made a part hereof.⁴

(2) "Lighting Zone B," comprising all that portion of Lighting Zone A which is within ten miles from the sea as defined in paragraph (h) (2) hereof.

(3) "Lighting Zone C," as particularly described and generally shown in said Exhibits 1 and 2 hereof.⁴

(c) *Effective hours.* All lighting restrictions hereinafter provided shall be applicable and observance thereof required at all times from one-half hour after sunset until one-half hour before sunrise each night from 1 October to 30 April, and from one hour after sunset until one hour before sunrise each night from 1 May to 30 September.

(d) *Restrictions in both lighting zones A and B.* Subject to the exceptions hereinafter provided, during the hours specified in section 3 hereof illumination within Lighting Zones A and B shall be controlled as follows:

(1) *Advertising and decorative lighting.* Illuminated signs and ornamental, decorative and display lighting of every description which are located out-of-doors, and floodlighting which illuminates buildings or signs, shall be extinguished.

(2) *Upward light.* All light sources of every description shall be situated or shielded so that no direct rays from any light source are emitted above the horizontal out-of-doors.

(3) *Outdoor area illumination.* Illumination on any outdoor area shall not exceed one foot candle at any point.

(e) *Additional restrictions in lighting zone B.* Subject to the exceptions hereinafter provided, during the hours specified in paragraph (c) hereof, any light source located within Lighting Zone B which is directly visible from the sea, as hereinafter defined, shall be either extinguished or shielded so that it is no longer directly visible from the sea, in addition to the applicable restrictions provided in paragraph (d) hereof.

(f) *Restrictions in Lighting Zone C.* Subject to the exceptions hereinafter provided, during the hours specified in paragraph (c) hereof illumination within Lighting Zone C shall be controlled as follows:

(1) *Upward light.* All electric incandescent lamps in excess of 100 watts capacity, and all other light sources producing equivalent light intensity, when located out-of-doors, shall be shielded so that no direct rays from any light source are emitted above the horizontal

⁴ Filed as part of the original document.

out-of-doors. Any accumulation of light sources located within or above any ten foot square of outdoor ground area shall be deemed to be a single light source, and if the aggregate intensity of such an accumulation of light sources exceeds the limit expressed in the preceding sentence, then all such light sources shall be shielded.

(2) *Outdoor area illumination.* Illumination on any outdoor area shall not exceed five foot candles at any point.

(g) *Exceptions.* Certain exceptions from the foregoing restrictions are made as follows:

(1) *Industry, safety, health and welfare.* Variations from any of the restrictions of this proclamation may be permitted by the written approval of the Ninth Regional Civilian Defense Board obtained in advance, but only when and to the extent required to achieve and maintain maximum industrial efficiency, or reasonable safety of persons or property, or to maintain health and welfare, and only to the extent consistent with the requirements of military necessity as determined from time to time by the undersigned. All approvals of lighting variations shall be reported to, and subject to revocation by the Commanding General, Western Defense Command. All approvals presently in effect under the provisions of said Public Proclamation No. 10, as amended by Public Proclamation No. 12, in respect to any illumination within Lighting Zones A, B or C, established herein, shall remain in effect as if reissued hereunder.

(2) *Interior lighting.* Upward light emitted out-of-doors from any light source shall be permitted if the light source is (i) within any building and more than six feet from the nearest window or other opening in the wall of the building, or (ii) at any location within a building used primarily as a residence, apartment, hotel or residential club, if all the direct rays emitted above the horizontal out-of-doors are shielded by any customary residential type of lamp shade; but in either case no direct rays from any light source shall be emitted through any skylight, and all indoor light sources within Lighting Zone B shall be shielded so that they are not directly visible from the sea. (See paragraph (f) for further exception of interior light sources in Lighting Zone C.)

(3) *Recreational lighting.* Outdoor area illumination up to a maximum of thirty foot candles is permitted in any location more than three miles from the sea as hereinafter defined, but only when and to the extent actually required and primarily used for sports or recreation, and when otherwise in compliance with the applicable restrictions of paragraphs (d) and (e) hereof.

(4) *Vehicle lights.* All vehicle lights required by law are permitted: *Provided, however,* That within Lighting Zone B, in areas visible from the sea as hereinafter defined, driving lamps shall be operated only on the low or depressed beam.

Authorized emergency vehicles on official emergency missions are excepted from all the restrictions of this proclamation.

(5) *Route and destination signs.* Illuminated route and destination signs on public carrier vehicles are excepted from all the restrictions of this proclamation.

(6) *Traffic signs and signals.* Illuminated signs and signals authorized by governmental authority to control or direct traffic are excepted from all the foregoing restrictions: *Provided, however,* That such signals are illuminated by electric lamps of not more than 100 watt capacity or the equivalent, and that the actual light sources illuminating such signs are shielded to comply with paragraphs (a) and (e) hereof.

(7) *Highway flares and obstruction lights.* Fuses or similar flares in an emergency, or so-called bomb type flares and warning lanterns, are excepted from all the foregoing restrictions, but only when and to the extent actually and immediately required to warn traffic of obstruction.

(8) *Navigation and railroad lights.* Authorized lights necessary to facilitate air or water navigation, authorized railroad signal lights, and headlights of railroad locomotives when in motion are excepted from all restrictions of this proclamation.

(9) *Street and highway lights.* All street and highway lights are excepted from the restrictions of paragraphs (d) and (f) hereof, but they must be shielded so that each light source emits no more than ten percent of its total lamp lumens above the horizontal and must be controlled so that such light sources contribute no more than three foot candles of illumination at any point upon the ground and in Lighting Zone B must be situated or shielded so that the light sources are not directly visible from the sea as hereinafter defined.

(h) *Definitions.* As used herein, the following words and phrases shall have the following meanings:

(1) "Light source" means any light generating element and the bright portion of any reflector, lens, luminaire, transparency, or other equipment associated therewith for the control or diffusion of light.

(2) "Sea" means the waters of the Pacific Ocean; the waters of the Straits of Juan de Fuca lying west of a line running due north and south through the easternmost point of the easterly boundary of the City of Clallam Bay, Washington; and those bodies of water on the shoreline of California generally known as Santa Monica Bay, Santa Barbara Channel, San Luis Obispo Bay, Estero Bay and Monterey Bay. The waters of San Francisco Bay, lying easterly of a line extending from Point Bonita through Mile Rock, are not intended and shall not be construed to be a part of the sea.

(3) "Visible from the sea" means actually and directly visible at any time from the sea, as defined above: *Provided,* That, solely for the purpose of paragraph

(g) (4) hereof, the phrase "visible from the sea" shall include those portions of streets or highways which may not in fact be visible from the sea but which are within areas generally visible from the sea.

(i) *Penalties.* Any person violating any of the provisions hereof, or orders issued pursuant hereto, is subject to immediate exclusion from the territory of the Western Defense Command, and to the criminal penalties provided in Public Law No. 503, 77th Congress, approved 21 March 1942 (18 U.S.C.A. 97a), and to any other penalties provided by law.

(j) *Enforcement.* The Ninth Regional Civilian Defense Board is designated as the primary agency to aid in the enforcement of this proclamation. It is requested that the civil law enforcement agencies and state and local governmental bodies within the areas affected by this proclamation assist in the enforcement hereof.

(k) *Blackout rules.* This proclamation shall have no effect upon existing or future laws or regulations governing blackouts.

(l) *Effective date.* This proclamation shall become effective on 10 October 1943.

PART 1253—BERYLLIUM

[General Preference Order M-160 as Amended
Oct. 13, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of beryllium for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1253.1 *General Preference Order M-160—(a) Definitions.* For the purposes of this order:

- (i) "Beryllium" means and includes:
 - (i) Ores and concentrates, including beneficiated or treated forms, containing beryllium, commercially recognized;
 - (ii) The element beryllium, sometimes known as "glucinum", in commercially pure form;
 - (iii) Any alloy containing 3% (three per cent) or more by weight of the element beryllium;
 - (iv) Any alloy made for resale in ingot form and containing less than 3% but not less than 0.1% by weight of the element beryllium, if made in whole or in part from scrap or secondary materials.
- (v) All chemical compounds containing beryllium as an essential and recognizable component;

(b) *Allocations.* After June 1, 1942, no person shall deliver or accept delivery of beryllium except as specifically authorized by the War Production Board. The War Production Board will from time to time allocate the supply of beryllium and specifically direct the manner and quantities in which deliveries thereof shall be made and accepted; and the War Production Board may also issue specific directions as to the manner and quantities in which beryllium may be processed for particular purposes or end uses. The War Production Board may require any person seeking to place a purchase order for beryllium to place the same with one or more particular suppliers. Such allocations and directions will be made to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made without regard to any preference ratings assigned to particular contracts or purchase orders.

(c) *Reports.* (1) Unless otherwise ordered by the War Production Board, no person shall be entitled to receive an allocation of beryllium unless, not later than the 20th day of the month next preceding the month in which delivery is desired, he shall have filed with the War Production Board, and with any supplier with whom he may place an order for beryllium, an appli-

cation on Form WPB-1122, and in addition shall have filed with the War Production Board a report on Form WPB-1123.

(2) Any person who, on the first day of June or any month thereafter, has in his possession or under his control any beryllium in excess of ten (10) pounds (beryllium content) shall file with the War Production Board a report on Form WPB-1123 not later than the 20th day of such month even though he does not desire delivery of beryllium during the next succeeding month.

(3) Failure by any person to file an application pursuant to paragraph (c) (1) may be construed as notice to the War Production Board and to all suppliers of beryllium that such person does not desire an allocation of beryllium for the next succeeding month.

(d) *Exceptions.* (1) Notwithstanding any other provision of this order, any person may, until July 1, 1942, deliver beryllium for the purpose of producing any article which is being produced with the assistance of a preference rating order or certificate issued or extended to the manufacturer which assigns a rating of A-1-c or higher.

(2) Beryllium may be delivered without the specific authorization of the War Production Board to the Metals Reserve Company or to any other Corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act, as amended (15 U.S.C., section 606 (b)), or to any duly authorized agent of such corporation.

(e) *Special directions.* The War Production Board may from time to time issue specific directions or prohibitions with respect to the permissible kind or quantity of beryllium in the composition of any material or product, and he may also in his discretion direct the use of any practical substitute in lieu of beryllium in the production of any materials or products.

(f) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(g) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *General Imports Order M-63 unaffected.* Nothing contained in this order shall be construed as altering or modifying in any way the provisions of General Imports Order M-63 applicable to beryllium.

(i) *Communications to War Production Board.* All reports required to be

filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Washington 25, D. C., Reference: M-160.

[Schedule VI as Amended Oct. 13, 1943 to
Limitation Order L-216]

VISES

§ 3114.7 *Schedule VI of Limitation Order L-216—(a) Definitions.* For the purpose of this schedule and the tables attached hereto:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons whether incorporated or not.

(2) Names of various styles of vises shall have the same meaning as in Federal Specifications GGG-V-436-a, and the illustrations in such specifications shall be deemed the graphic descriptions of the vises referred to; provided, however, that none of the other provisions of such specifications shall be controlling.

(3) "Jaw cap" means the cap designed to be placed across the face of the jaw of a vise to cover the surface of the jaws.

(b) *Manufacture of jaw caps.* No person shall perform any manufacturing operation upon or sell any jaw caps made of any metal other than lead or lead base alloy.

(c) *Limitation on manufacture of vises.* (1) No person shall manufacture any vise other than in the styles listed in Tables I and II hereto attached.

(2) No person shall manufacture any vise of any of the styles listed in Table II, except in the jaw sizes and not exceeding the maximum weights, if any, specified for such style of vise in such table.

(3) No person shall use in the manufacture of vises any metals other than carbon steel or cast or malleable iron, except that jaw facings may be manufactured of tool steel.

(d) *Exceptions.* Nothing contained in paragraphs (b) and (c) of this schedule shall be deemed to prohibit the sale of jaw caps or vises which on January 1, 1944, were completely fabricated, nor to prohibit the manufacture and sale of jaw caps or vises which on January 1, 1944, had been so fabricated that completion in compliance with the provisions of this schedule would be impracticable. Each person who shall manufacture or sell any jaw cap or vise under the terms of this exception, shall keep and maintain, subject to inspection by the War Production

Board, accurate records with respect to each such transaction.

(e) *Manufacture of repair parts.* Nothing contained in paragraph (c) of this schedule shall be deemed to prevent the manufacture of repair parts for vises, notwithstanding the fact that the vises for which such parts are made do not conform to the limitations set forth in this schedule. No person shall assemble repair parts so produced into a complete vise, but shall use them only for the purpose of replacing parts of vises which are broken or so badly worn that they are no longer serviceable.

(f) *Effective date of schedule.* Notwithstanding any of the provisions of this schedule as originally issued on September 7, 1943, this schedule and the attached tables shall not take effect until January 1, 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Direction 23 as Amended Oct. 13, 1943 to CMP Reg. 1]

ACCEPTANCE OF ORDERS FOR ALUMINUM BY ALUMINUM PRODUCERS AND THE EFFECT OF DELAYS IN PRODUCTION

The following direction is issued pursuant to CMP Regulation 1:

(a) The following direction applies to all orders placed with producers of aluminum calling for delivery of aluminum in the form of controlled material, except ingot. Deliveries of ingot are controlled by a directive issued to producers and smelters May 31, 1943, and subsequently amended by Directive P-8, dated October 1, 1943.

(b) The term "aluminum product" as used in this direction means aluminum and aluminum alloy products in the form of controlled material as described in Schedule I of CMP Regulation No. 1, except ingot. The term "order" as used in this direction means not only an authorized controlled material order but also an order covered by an AM authorization number.

(c) No producer shall accept for delivery in the calendar month specified on the order, any order for an aluminum product which he does not expect to be able to deliver in that month.

(d) No producer shall accept for delivery in the calendar month specified on the order, any order for an aluminum product covered by his production directive, when his total orders for such product scheduled for delivery in that month equal 110% of the amount of such product he is authorized to produce by his production directive; and no producer shall accept for delivery in the calendar month specified on the order, any order for an aluminum product not covered by his production directive, when his total orders for the product scheduled for delivery in that month equal 105% of his expected production for that month. In determining whether or not an order may be accepted for delivery in the month specified, the producer must include in the 110% or 105% all orders already accepted by him which either (i) were accepted for delivery in the same calendar month as the delivery month specified on the order under consideration, or (ii) were accepted for delivery in any earlier month and which he anticipates he will not be able to fill before the beginning of the delivery month specified.

(e) If a producer is prohibited from accepting an order for delivery in the month specified by his customer because of the restrictions described in paragraphs (c) and (d) above, but the producer has open capacity available in either of the two following months, the producer must tentatively accept and schedule the order for delivery as early as possible. As promptly as possible, and in any event within seven days of the receipt of the order, the producer must notify the customer of the proposed delivery date within the two ensuing months and tell him that the order has been accepted subject to the receipt, within seven days of the day notice was given, of written confirmation and, when required, of the certification described below. If the customer does not have written confirmation of the new delivery date in the producer's hands within seven days after the date on which the notice of tentative acceptance was sent, the producer must cancel the order. If the new delivery date falls within a later quarter than that shown on the original order, and the order is an authorized controlled material order and not an AM order, the confirmation has no effect until the producer receives the

customer's certification that he has an allotment valid for the new quarter, in which case the customer must charge the order against that allotment. The confirmation and certification may be by letter or telegram. If made by letter, the letter must be signed by a person authorized to sign the form of certification required on authorized controlled material orders, and, if made by telegram, a copy must be signed by such person and held in the customer's file.

(f) If a producer has no open capacity available in the delivery month specified on an order or in the two following months, he must reject the order as promptly as possible, and in any event within seven days of its receipt, and tell his customer that he has done so.

(g) If, after finally accepting an order for aluminum products, a producer finds that he cannot make delivery during the calendar month in which delivery was promised, the order must, nevertheless, be given a position on his production schedule and be filled ahead of all orders accepted for delivery in any month after the promised delivery month, unless otherwise directed by the War Production Board or the customer, even if the order shows that the allotment was valid for a quarter earlier than the one in which delivery is actually to be made. The producer must notify his customer as soon as he reschedules the order, stating the approximate date when the producer expects to make delivery, and keep his customer advised of any changes in that date. If a producer finds that he cannot make delivery before the end of the month following the quarter in which delivery was originally promised, he must, by the last day of the quarter for which the order was originally accepted, notify the Aluminum and Magnesium Division, attention of the Chief of the Fabrication Branch, in writing, stating the allotment number, the name of the customer, the material covered by the order, the reason for delay, and when he can schedule the order for delivery.

(h) Nothing in this direction affects the right of a customer to cancel his order for failure to deliver on time.

Issued this 13th day of October 1943.

(1) No manufacturer shall produce or assemble any domestic laundry equipment except as authorized by the War Production Board in response to an application by letter.

(2) The War Production Board will usually not approve production of any domestic laundry equipment except washing machines from fabricated parts in manufacturers' inventories prior to January 1, 1943, and will approve this production or assembly only in such quantities as shall be determined to fill special orders. Upon request, the War Production Board will inform any manufacturer of the production authorized.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 477]

SALES OF RUBBER HEELS AND SOLES IN THE SHOE FACTORY TRADE

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

In so far as this regulation uses specifications and standards which were not prior to such use, in general use in the trade or industry affected, or in so far as their use was not lawfully required by another government agency, the Price Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

§ 1315.1602 *Maximum prices for sales of rubber heels and soles in the shoe factory trade.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, Maximum Price Regulation 477 (Sales of Rubber Heels and Soles in the Shoe Factory Trade), which is annexed hereto and made a part hereof, is hereby issued.

ARTICLE I—SCOPE AND PROHIBITIONS OF THE REGULATION

SECTION 1. *What this regulation does.* This regulation fixes maximum prices for all sales in the shoe factory trade of heels and soles made in whole or in part of rubber. However, this regulation does not apply to heels or soles made primarily from paper, wood, rope, or whole fabrics. This regulation does apply to heels or soles made in part from cord, fabrics (other than whole fabrics), or other fibers, and in part of rubber. When used in this regulation, the term:

(a) "Heel" includes all heels, heel bases, toplifts, and toplifting sheets, strips and blocks.

(b) "Sole" includes all taps, full soles, midsoles, and outsoles and midsoles, strips and blocks.

(c) "Sale in the shoe factory trade" means a sale or offer for sale of heels or soles made in whole or in part of rubber (1) to persons who use those heels or soles in the manufacture of civilian (non-military) shoes, or (2) to persons who sell the heels or soles purchased by them to persons who use those heels or soles in the manufacture of civilian (non-military) shoes.

SEC. 2. *Where this regulation applies.* The provisions of this regulation shall apply to the forty-eight states of the United States and to the District of Columbia.

SEC. 3. *Relation to other regulations—*(a) *Regulations superseded.* Except as otherwise provided in this regulation, this regulation supersedes the General Maximum Price Regulation¹ and any other regulation issued by the Office of Price Administration with respect to sales, deliveries or transfers covered by this regulation.

(b) *Export sales.* The maximum price at which a person may make any export sales or sales to exporters in the shoe factory trade of heels and soles shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation² or

any revisions thereto. When used in this paragraph the terms "export sale" and "exporter" have the meanings given to them by section 11 of the Second Revised Maximum Export Price Regulation.

SEC. 4. *Prohibition against dealing in heels and soles at prices above the maximum.* On and after November 1, 1943, the date this regulation takes effect, regardless of any contract or other obligation:

(a) No person is permitted to sell or deliver in the shoe factory trade any heels or soles at a price which is higher than the maximum price fixed by this regulation.

(b) No person is permitted to buy or receive in the shoe factory trade any heels or soles at a price which is higher than the maximum price. If the purchaser receives from the seller a written statement that the price does not exceed the maximum price fixed by this regulation and the purchaser has no reason to doubt the accuracy of that statement, the purchaser shall be deemed to have complied with this paragraph.

(c) No person shall agree, offer, solicit or attempt to do any of the acts prohibited by paragraphs (a) or (b).

SEC. 5. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 6. *Maximum prices for heels and soles listed in Appendix A.* This section is applicable to the sale by any person of heels and soles listed in Appendix A. The seller shall determine the maximum price of a heel or sole covered by this section by deducting from the price for the heel or sole listed in Appendix A all discounts, allowances and any other deductions from the list price that he had in effect to a purchaser of the same class during March, 1942.

SEC. 7. *Maximum manufacturers' prices for heels and soles not listed in Appendix A—*(a) *Maximum manufacturers' prices for heels and soles not listed in Appendix A which were dealt in by the manufacturer during the period October 1, 1941, to March 31, 1942, inclusive.* This paragraph is applicable to heels and soles which are not listed in Appendix A, but which were delivered or offered for delivery in the shoe factory trade by the manufacturer during the period October 1, 1941, to March 31, 1942, inclusive. The maximum price for a heel or sole covered by this paragraph shall be the first applicable of the prices set forth in (1) to (4) below, less the deduction required by subparagraph (6) below, wherever applicable:

(1) The highest price at which the manufacturer during March, 1942, delivered, or if no delivery was made, at which he offered to deliver during that month to a purchaser of the same class a heel or sole which is the same as the heel or sole being priced.

(2) The highest price at which the manufacturer during March, 1942, delivered, or if no delivery was made, at which he offered to deliver during that month to a purchaser of a different class a heel or sole which is the same as the heel or sole being priced, adjusted to reflect the seller's March, 1942, differential between the two classes of purchasers.

(3) The last price at which the manufacturer during the period October 1, 1941, to February 28, 1942, inclusive, delivered, or if no delivery was made, at which he offered to deliver during that period to a purchaser of the same class a heel or sole which is the same as the heel or sole being priced.

(4) The last price at which the manufacturer during the period October 1, 1941, to February 28, 1942, inclusive, delivered, or if no delivery was made, at which he offered to deliver during that period to a purchaser of a different class a heel or sole which is the same as the heel or sole being priced, adjusted to reflect the seller's March, 1942, differential between the two classes of purchasers.

(5) *Same heel or sole.* For the purposes of this section, the heel or sole being priced shall be deemed to be the same as a heel or sole delivered or offered for delivery by the manufacturer during the period October 1, 1941, to March 31, 1942, inclusive:

(i) If it is identical to a heel or sole delivered or offered for delivery by the manufacturer during that period;

(ii) If it is made in the same mold and is made for shoes of the same kind and price line as a heel or sole delivered or offered for delivery by the manufacturer during that period, and if its physical specifications are not lower than the physical specifications of that heel or sole on April 8, 1943; or

(iii) If it is the same as a heel or sole delivered or offered for delivery by the manufacturer during that period, except for the changes made necessary by the substitution of buna-S (GR-S) or butyl (GR-I) for natural rubber.

(6) *Deduction of federal excise tax.* If, during March 1942, the manufacturer did not customarily state and collect separately from the purchase price the federal excise tax on rubber commodities, he shall deduct the amount of such tax from the first applicable of the prices set forth in subparagraphs (1) to (4), inclusive.

(b) *Maximum manufacturers' prices for heels and soles not listed in Appendix A which are not the same as those dealt in by the manufacturer during October 1, 1941, to March 31, 1942, inclusive—*(1) *Maximum prices.* This paragraph is applicable to heels and soles not listed in Appendix A, which are not the same as a heel or sole delivered or offered for delivery in the shoe factory trade by the manufacturer during the period October 1, 1941, to March 31, 1942, inclusive. The phrase "the same as" is defined in subparagraph (5) of the preceding paragraph (a). The maximum manufac-

turers' price for a heel or sole covered by this paragraph shall be the maximum price established by this regulation for the sale by the nearest competitive manufacturer to the same class of purchaser of a heel or sole made in approximately the same contour, iron and size and to substantially the same physical specifications as the heel or sole being priced. For example, two men's non-fiber, eight nail reclaimed rubber half heels, size 12/13, made with a tensile strength of 800 and abrasion of 18, are heels "made in approximately the same contour, iron and size and to the same physical specifications."

(2) *Report and approval of maximum prices.* Before or at the time of the first delivery after October 31, 1943, of a heel or sole priced under this paragraph (b) the manufacturer shall file a report with the Office of Price Administration, Washington, D. C. This report shall include:

(i) Four pairs of the heel or sole priced under this paragraph (b);

(ii) The maximum price determined by the seller; and

(iii) A statement of the reasons why the manufacturer selected the particular heel or sole produced by another manufacturer as the basis for establishing the maximum price of the heel or sole being priced.

The manufacturer may sell, offer to sell, deliver, transfer and receive payment for the heel or sole at the maximum price proposed by him. However, if the Office of Price Administration determines that that maximum price is not in line with the level of maximum prices established by this regulation, it will designate a different maximum price in writing (not to apply retroactively). The manufacturer may not sell, offer to sell, deliver or transfer the heel or sole at a price in excess of that so designated.

SEC. 8. *Maximum prices for sales by persons, other than manufacturers, of heels and soles not listed in Appendix A.* This section is applicable to sales in the shoe factory trade of heels and soles that are not listed in Appendix A. The maximum price for a sale in the shoe factory trade by a person, other than a manufacturer, of such heels and soles shall be the maximum price established by section 7 for the sale of the heel or sole by the manufacturer to a purchaser of the same class. If the seller requests the manufacturer to notify him of that price, the manufacturer is required to do so in writing by paragraph (b) of section 18.

SEC. 9. *Maximum prices for sales by all persons of heels and soles that can not be priced under sections 6, 7 and 8—(a) Report.* This section is applicable to sales in the shoe factory trade by all persons of heels and soles that can not be priced under section 6, 7 or 8 of this regulation. The maximum price for such sales shall be a price in line with the level of maximum prices established by this regulation, specifically authorized by the Office of Price Administration. A seller seeking such an authorization shall file a report with the Office of Price Administration, Washington, D. C. This

report shall include 4 pairs of the heel or sole being priced and the following information:

(1) The physical specifications (abrasion index, tensile strength, hardness and rubber hydrocarbon content) of the heel or sole.

(2) The principal materials used in the production of the heel or sole.

(3) A statement of the reasons why the maximum price can not be determined under any other section of the regulation.

(4) The current estimated direct labor, direct materials, factory overhead and total costs of producing the heel or sole in the case of a manufacturer, and the current price the seller is paying for the heel or sole in the case of any other seller.

(5) The maximum price proposed by the seller.

(6) A statement of the reasons why the seller believes that this price is in line with the level of maximum prices established by this regulation.

(b) *Maximum prices.* The seller may sell, offer to sell, deliver and transfer the heel or sole at the maximum price proposed by him in the report. However, he may not receive payment for the heel or sole until the Office of Price Administration approves the proposed maximum price in writing or until twenty-one days have elapsed after the mailing of the report without the Office of Price Administration disapproving of the maximum price. If the Office of Price Administration disapproves of the proposed maximum price, it will designate a different maximum price in writing. The seller may not receive payment for the heel or sole at a price in excess of that so designated. The maximum price either approved or designated in the manner just set forth shall be the maximum price for all subsequent sales of the heel or sole to purchasers of the same class as the one for which the maximum price is established. However, the Office of Price Administration may establish in writing a different maximum price (not to apply retroactively).

SEC. 10. *Federal and state taxes.* Any tax upon or incident to, the sale, delivery or processing of heels or soles imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased. The tax on the transportation of all property imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any heel or sole, be treated as though it were an in-

crease of 3 percent in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

SEC. 11. *Terms and conditions of sale—*

(a) *Credit charges.* Charges for the extension of credit may be added to the maximum prices established by this regulation if: (1) The seller during March, 1942, required payment of a separately stated additional charge for the extension of credit by purchasers of the same class on sales of the same or similar types of heels or soles; (2) the amount charged for the extension of credit is not in excess of the charge the seller had in effect during March, 1942, for extension of credit involving the same amount and term; and (3) such charges are quoted and billed separately. No seller may require as a condition of sale that the purchaser must buy on credit.

(b) *Transportation charges.* No seller shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery of any heel or sole than the seller required purchasers of the same class to pay on deliveries of the same or similar types of heels or soles during March, 1942.

SEC. 12. *Fractions of a cent.* Notwithstanding any other provisions of this regulation, maximum prices established by this regulation shall be adjusted to the nearest fraction of a cent that the seller customarily used during March, 1942, in pricing heels or soles sold in the shoe factory trade.

SEC. 13. *Transfers of business or stock in trade.* If the business, assets or stock in trade are sold, or otherwise transferred after March 31, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

ARTICLE III—MISCELLANEOUS

SEC. 14. *Petitions for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.³

SEC. 15. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by

³ 7 F.R. 8961; 8 F.R. 3313, 3533, 6173, 11806.

the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production, and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator, or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated.

Sec. 16. Records. Every person subject to the provisions of this regulation is required to keep certain records for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect. These records are described in three paragraphs as follows:

(a) **Records of sales.** Every person subject to this regulation shall keep accurate records of each sale of a heel or sole covered by the regulation. These records shall show:

- (1) The date thereof.
- (2) The name and address of the buyer.
- (3) The quantity of each class, type, condition and grade of heel or sole sold.
- (4) The price received per unit.

(b) **Records of the bases on which maximum prices are determined.** Every manufacturer subject to this regulation shall keep accurate records of the following:

(1) The prices charged by the manufacturer during the period October 1, 1941, to March 31, 1942, for each heel and sole covered by this regulation.

(2) Detailed cost estimate sheets and other data showing the calculation of the prices of all heels and soles for which the maximum prices must be determined under section 9 of this regulation.

(c) **Records of notifications of maximum prices given to resellers.** Every manufacturer subject to this regulation shall keep exact copies of all notifications of maximum prices given to resellers of heels and soles covered by this regulation.

SEC. 17. Reports—(a) Price lists. Every seller subject to the provisions of this regulation shall file with the Office of Price Administration, Washington, D. C., before December 1, 1943, his latest price lists for heels or soles sold in the shoe factory trade. Thereafter, whenever a seller subject to the provisions of this regulation issues a new price list, he shall file one copy with the Office of Price Administration, Washington, D. C., within 10 days after putting the new price list into effect.

(b) **Maximum prices.** In addition every seller subject to the provisions of this regulation shall file with the Office of Price Administration, Washington, D. C., before December 1, 1943, the maximum prices established by this regulation for all heels or soles sold or offered for sale in the shoe factory trade on November 1, 1943, which are not included in, or differ from, the filed price lists.

SEC. 18. Notification by manufacturers—(a) Grades of heels made from HF Compound. Every manufacturer of heels manufactured from HF Compound (as defined in War Production Board Order R-1 issued on June 18, 1943) after October 31, 1943, for sale in the shoe factory trade, shall notify the purchaser in writing of the grade of the heels in question. The grades shall be "HF-A", "HF-B", "HF-C", "HF-D", and "corded." Such notification shall appear either on the invoice or in the price list sent to the purchaser.

(1) **Meaning of "HF-A", "HF-B", "HF-C", "HF-D" and "corded."** (i) The symbols "HF-A", "HF-B", "HF-C", "HF-D", mean heels manufactured after October 31, 1943, which can meet the following physical tests:

Grade	Minimum abrasion ¹		Tensile strength ²
	All types except whole heels	Whole heels	
HF-A.....	18	16	800
HF-B.....	13	12	500
HF-C.....	8	8	400
HF-D.....	8	8	---

¹ The methods of Federal Specifications FA-ZZ-H-141 and ZZ-R-601a shall be applicable to these specifications.
² "HF-D" heels are all run-of-the-mill heels, not carefully trimmed or inspected, or which do not meet the minimum tensile strength requirements of "HF-C" heels.

(ii) "Corded" heels are any heels containing clearly distinguishable whole cords which at any given level lie generally parallel to each other. The minimum abrasion of such heels must be 28.

(b) **Notification of maximum prices.** Every manufacturer of heels or soles covered by this regulation shall notify every reseller to whom he sells heels or soles of the maximum prices established by this regulation for the sale of the heels or soles by the manufacturer to the class or classes of purchasers to whom the reseller intends to sell the heels or soles. This notification shall be in writing and need be given only if the reseller specifically requests it.

SEC. 19. Licensing. The provisions of Licensing Order No. 1,⁴ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be

⁴ 8 F.R. 13, 240.

suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 20. Evasion. The price limitations set forth in this regulation shall not be evaded whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase of or relating to heels and soles covered by this regulation alone, or in conjunction with any other commodity by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement, or other trade understanding, or otherwise.

SEC. 21. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 22. Definitions. (a) When used in this regulation, the term:

(1) "Manufacturer" means any person engaged in the production of heels or soles.

(2) "Natural rubber" means all forms and types of crude rubber, natural latex, reclaimed rubber and scrap rubber.

(3) "Person" includes an individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(4) "Purchaser of the same class" and "class of purchaser" refers to the practice adopted by the seller in setting different prices for sales of heels and soles to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, public institution), or for purchasers located in different areas or for different quantities or grades, or under different conditions of sale.

(5) "Rubber" means all forms and types of natural and synthetic rubber.

(6) "Synthetic rubber" means a material obtained by chemical synthesis, possessing the approximate physical properties of natural rubber, when compared in either the vulcanized or unvulcanized condition, which can be vulcanized with sulphur or other chemicals with the application of heat, and which, when vulcanized, is capable of rapid elastic recovery after being stretched to at least twice its length at temperatures ranging from 0° F. to 150° F. at any humidity.

(b) Unless the contract otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

Correction

In F. R. Doc. 43-15432, appearing on page 12951 of the issue for Thursday, September 23, 1943, the price for Zone I under paragraph (6) in the third column should read "\$1.10 per cwt."

SUBPART B—THIRTY YARD MINIMUM BOYS' BIB OVERALLS

§ 1389.228 *Appendix L: Thirty yard minimum boys' bib overall; Definitions.* (a) Any boys' bib overall which consumes an average of at least thirty yards of eight ounce shrunk denim per dozen in a range of sizes from 4-16 may be designated by a manufacturer as a "thirty yard minimum boys' bib overall" and may be priced under Appendix N of this regulation, provided that each purchaser is notified according to the requirements of Appendix O, that the overalls are being priced under Subpart B. Wholesalers and retailers receiving such notice must then price thirty yard minimum boys' bib overalls under Appendix M of this regulation.

(b) The definitions of paragraphs (b) and (c) of Appendix D (§ 1389.220) are hereby incorporated into Subpart B and apply to sales of thirty yard minimum boys' bib overalls.

§ 1389.229 *Appendix M: Wholesale and retail ceiling prices for thirty yard minimum boys' bib overalls.* (a) In any sale at wholesale or retail the maximum price of a thirty yard minimum boys' bib overall shall be determined as follows:

(1) Take the highest price you charged in March 1942 for a boys' bib overall and divide that price by the net invoice cost of that garment to you. If you did not sell any boys' overalls during March 1942 take the highest price charged for a men's bib overall during March 1942 and divide that price by the net invoice cost of that garment.

(2) Multiply the percentage so obtained by the net invoice cost of the garment being priced under this section. The resultant figure shall be the maximum price of the boys' overall being priced, but in no event shall the maximum price for a retailer be higher than \$1.50 a garment in the East and Central area; and \$1.53 a garment in the Mountain and Pacific area. The maximum price for a wholesaler shall in no case be higher than \$14.21 per dozen where the seller's place of business is in the East and Central area; and \$14.56 per dozen where the seller's place of business is in the Mountain and Pacific area.

(3) "Net invoice cost" means the price on the face of the invoice less all discounts available, but adding transportation or delivery charges.

§ 1389.230 *Appendix N: Manufacturers' ceiling prices for thirty yard minimum boys' bib overalls.* (a) The following table gives ceiling prices for sales of thirty yard minimum boys' bib overalls at source. All prices are per dozen garments f. o. b. seller's place of business, net 30 days:

MANUFACTURERS' CEILING PRICES—EAST AND CENTRAL
(Boys' Bib Overalls)

Fabric	Weight in yards per pound and ounces per yard	Finish	Sales to Class I purchasers	Sales to Class II purchasers
Denim-----	2.00-8 oz-----	Shrunk-----	\$11.83	\$14.01

(b) *Mountain and Pacific.* In order to determine the ceiling price for a sale of a thirty yard minimum boys' bib overall, at source, where the seller's place of business is in the Mountain and Pacific area, the seller must take the ceiling price for sales in the East and Central area and add 35¢ per dozen.

§ 1389.231 *Appendix O: Notification to be furnished to purchasers for resale.* Every manufacturer, wholesaler or other person who sells or delivers to a purchaser for resale a garment for which a maximum price has been established under Subpart B of this regulation shall furnish at the time of delivery of such garment, to the purchaser thereof, a statement in the following form:

This notice is sent to you as required by Amendment 4 to MPE 208 which covers sales of certain boys' bib overalls. We have been allowed to price these overalls, Lot No. _____ under that regulation since they conform to the yardage requirements set forth in the amendment. Whether you are a wholesaler or retailer, this notice tells you how to find your maximum prices. You must be certain to follow the method set forth below in order to comply with the law.

HOW TO COMPUTE YOUR MAXIMUM PRICES

Take the highest price you charged in March 1942 for a boys' bib overall and divide that price by the net invoice cost of that garment to you. If you did not sell any boys' overalls during March 1942 take the highest price charged for a men's bib overall during March 1942 and divide that price by the net invoice cost of that garment.

Multiply the percentage so obtained by the net invoice cost of the garment being priced under this section. The resultant figure shall be the maximum price of the boys' overall being priced, but in no event shall the maximum price for a retailer be higher than \$1.50 a garment in the East and Central area (refers to sales in which the seller's place of business is in a state east of New Mexico, Colorado, Wyoming and Montana) and \$1.53 a garment in the Mountain and Pacific area (refers to sales in which the seller's place of business is in New Mexico, Colorado, Wyoming and Montana or farther west). The maximum price for a wholesaler shall in no case be higher than \$14.21 per dozen for sales in the East and Central area and \$14.56 per dozen for sales in the Mountain and Pacific area.

"Net invoice cost" means the price on the face of the invoice less all discounts available, but adding transportation or delivery charges.

Every wholesaler must furnish his retailers with the above notice either by forwarding separate printed, typewritten or mimeographed copies attached to the invoice to accompany each shipment of overalls priced under this amendment or have the notice stamped on the invoice if that is more convenient. Any manufacturer who sells either to a retailer or wholesaler is likewise obliged to furnish such a notice with each shipment.

§ 1389.232 *Appendix P: Disclosure.* Every person who buys or offers to buy thirty yard minimum boys' bib overalls for resale may be requested by the seller to furnish a signed statement showing the class of purchaser to which he belongs. Within 10 days after receiving such a request in writing, the buyer must supply the seller with this statement. If

the seller has no reason to believe that the buyer's statements are erroneous, he may rely upon them in charging the buyer.

This amendment shall become effective October 19, 1943.

Consumers whose annual purchases exceed 20 net tons, but do not exceed 50 net tons—50 cents per ton.

Consumers whose annual purchases exceed 50 net tons—\$1.00 per ton.

A consumer's annual purchases determine his classification whether or not he purchases all of his requirements from a single dealer. If the consumer's proper classification cannot be determined at the time of delivery (as, for example, in the case of a consumer who converts from oil to coal), an estimate shall be made of his probable consumption, he shall be tentatively classified upon the basis of that estimate, and the dealer or dealers supplying him shall make an appropriate refund and may require that the consumer agree to pay an appropriate additional amount if, when his actual classification is determined, it appears that he was entitled to a lower price or could properly have been charged a higher one.

(3) Terms of sale. If payment is made by the buyer within 10 days after receipt of the fuel, the maximum prices set forth above shall be reduced by 50 cents per ton, or by 25 cents per half-ton, or by 15 cents per quarter-ton, which reductions are "cash discounts". No further discount is required for cash on delivery, and no "cash discount" is required on sales of less than a quarter-ton. If payment is not required or made at the time of delivery or (except in the case of

less than quarter-ton lots) within 10 days thereafter, terms shall be net 30 days.

(4) Maximum authorized service and deposit charges. (a) No additional charge shall be made for any carrying or wheeling which may be necessary to effect delivery into consumer's bin or storage space, except for carries up or down flights of stairs.

(b) If the buyer requests such services of him, the dealer may make the following charges for any carry up or down flights of stairs:

	1 ton	½ ton	¼ ton	100 lbs.
Maximum charge per flight	Cents 50	Cents 25	Cents 15	Cents 10

If delivery cannot be made into consumer's bin or storage space without a carry up or down one or more flights of stairs, and the buyer does not request such carry service, the prices established hereby shall apply when the fuel is delivered to the available point nearest and most accessible to the flight of stairs which must be used to gain access to the bin or storage space.

(c) If the buyer requests that fuel delivered in burlap bags or canvas carrying bags furnished by the dealer be left in the bags, the maximum amounts which may be required by the dealer as a deposit on, or as predetermined liquidated damages for failure to return, the bags shall be as follows:

Per burlap bag----- 25¢

SAMUEL SEGEL

FINDINGS AND ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 7th day of October 1943.

In the matter of Samuel Segel, 2204 Dirleton Road, Utica, New York.

1. Samuel Segel (the "registrant") is registered as a broker and dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934. We instituted this proceeding under section 15 (b) to determine whether the registration of the above registrant should be revoked.

2. Our order of August 17, 1943, instituting proceedings, stated that the registrant is permanently enjoined by decree of the Supreme Court of New York State, in and for the County of Oneida, entered on or about November 23, 1942, from engaging in or continuing certain conduct and practices in connection with the sale of securities and that said registrant was convicted on or about June 29, 1943 in the Oneida County Court at Utica, New York, of a felony involving the purchase and sale of securities and arising out of the conduct of his business as a broker and dealer.

3. At the hearing held before the Trial Examiner on August 30, 1943, the registrant did not appear, but in an "Answer and Consent to Revocation", which he filed, registrant acknowledged receipt and service of adequate notice of said proceedings, waived his opportunity to be heard, admitted and acknowledged the existence of the facts as set forth in the Commission's order of August 17, 1943 and consented to the entry of an order by the Commission revoking his registration as a broker and dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934. The record shows, and we find, that by judgment of the Supreme Court of the State of New York, held in and for the County of Oneida, entered on or about November 23, 1942, that the registrant is permanently enjoined from engaging in or continuing certain conduct and practices in connection with the sale of securities and, further, that the registrant was convicted on or about June 29, 1943 in the Oneida County Court at Utica, New York, of a felony involving the purchase and sale of securities and arising out of the conduct of his business as a broker and dealer.

4. We find that revocation of registrant's registration as a broker and dealer is in the public interest.

Accordingly, *It is ordered*, Pursuant to section 15 (b) of the Securities Ex-

change Act of 1943, that the registration of Samuel Segel be, and the same hereby is, revoked effective October 11, 1943. By the Commission.

In the matter of Setay Company, Incorporated, Metropolitan Royalty Corporation, Associated Motion Picture Industries, Inc., Consolidated Film Industries, Inc., Cajo Company, Inc., Frederick R. Ryan, Herbert J. Yates, Jr., Walter W. Vincent and Morris Goodman.

Setay Company, Incorporated ("Setay"), a registered investment company, has filed an application pursuant to sections 6 (c) and 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of section 17 (a) of said Act the proposed transactions hereinafter set forth and for an order pursuant to section 8 (f), after consummation of certain of the proposed transactions, declaring that Setay has ceased to be an investment company within the meaning of said Act.

The transactions for which Setay seeks exemption are: (1) The purchase by Setay and the sale by Metropolitan Royalty Corporation, a registered investment company and an affiliated person of Setay, of 6,000 shares of Republic Pictures Corporation ("Republic") for \$30,000;

(2) The transfer by Setay to Associated Motion Picture Industries, Inc. ("Associated"), an affiliated person of affiliated persons of Setay, of all assets, property and rights of Setay, except 90,085 shares of Republic, 150 shares of Cajo Company, Inc. ("Cajo"), some secured notes receivable in the amount of \$200,000 and the 6,000 shares of Republic to be acquired from Metropolitan Royalty Corporation, in consideration of Associated issuing to Setay 94,735.8 shares of the total authorized and unissued capital stock of Associated and assuming all obligations and liabilities of Setay except some notes payable in the amount of \$200,000. As of September 11, 1943, Associated has no assets or liabilities and none of its stock was outstanding. Setay proposes to distribute the 94,735.8 shares of Associated to be received in this transaction to its stockholders on a share for share basis;

(3) The issuance by Setay to Consolidated Film Industries, Inc., an affiliated person of Setay, of 195,442 shares of its authorized and unissued stock in exchange for 317,800 shares of Republic and 150 shares of Cajo (the latter shares are the equivalent of a one-half interest in 225,000 shares of Republic);

(4) The purchase by Setay of an aggregate of 750 shares of Republic from Frederick R. Ryan, Herbert J. Yates, Jr., Walter W. Vincent and Morris Goodman at either \$5 per share or at the election of Setay on the basis of an exchange of .4542 share of the authorized and unissued stock of Setay for each share of Republic. The foregoing individuals are either affiliated persons or affiliated persons of affiliated persons of Setay; and

(5) Upon consummation of the transaction in (3) above, Setay, as the sole stockholder of Cajo, proposes to acquire all of the assets of Cajo which consist of 225,000 shares of Republic. Setay and Cajo are affiliated persons of each other.

Setay plans to consummate the proposed transactions in the order in which they are set forth above.

It is ordered, Pursuant to section 40 (a) of said Act, that a hearing on the aforesaid application be held on October 21, 1943, at 10:00 A. M., Eastern War Time, in Room 318 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pennsylvania.

It is further ordered, That Robert P. Reeder, Esquire, or any other officer or officers of the Commission designated by it for that purpose, shall preside at such hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to Trial Examiners under the Commission's Rules of Practice.

Notice of such hearing is hereby given to Setay Company, Incorporated, Metropolitan Royalty Corporation, Associated Motion Picture Industries, Inc., Consolidated Film Industries, Inc., Cajo Company, Inc., Frederick R. Ryan, Herbert J. Yates, Jr., Walter W. Vincent, Morris Goodman, and to any other person whose participation in such proceeding may be in the public interest or for the protection of investors.

TRANSATLANTICA EXCHANGE & SECURITIES Co.

FINDINGS AND ORDER SUSPENDING REGISTRATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 7th day of October 1943.

In the matter of William J. Adams, doing business as Transatlantica Exchange & Securities Co., 29 Broadway, New York, New York.

1. William J. Adams, doing business as Transatlantica Exchange & Securities Co., a sole proprietorship, is registered as a broker and dealer pursuant to section 15 of the Securities Exchange Act of 1934.

2. The Commission, on the basis of facts reported to it, ordered a hearing pursuant to section 15 (b) of the Securi-

ties Exchange Act to determine whether or not the allegations of fact set out in its order for proceedings are true and whether or not said registration should be revoked or, pending final determination, suspended. The facts alleged, if true, tend to show that the registrant was convicted, on or about May 26, 1942, in the Court of Quarter Sessions of the Peace for the County of Allegheny in the State of Pennsylvania, of a felony arising out of the conduct of the business of a broker and dealer.

3. Notice of the proceeding was sent by registered mail to the registrant at the address designated by him in his application for registration. The notice was returned unclaimed. The registrant did not appear and was not represented at the hearing.

4. The Trial Examiner filed an advisory report, a copy of which was mailed to the registrant and returned unclaimed.

5. On an independent review of the record, we find that the registrant was convicted, on or about May 26, 1942 in the Court of Quarter Sessions of the Peace for the County of Allegheny in the State of Pennsylvania, of a felony arising out of the conduct of the business of a broker and dealer.

Since the notice of our proceeding was not received by the registrant, we do not decide at this time whether or not his registration should be revoked. However, in view of the conviction described above, we find that it is necessary in the public interest and for the protection of investors that Adams' registration be suspended pending final determination of whether or not his registration should be revoked, which matter will be determined when he comes in to be heard or notice is received by him. *It is, therefore, ordered*, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of William J. Adams, doing business as Transatlantica Exchange & Securities Co., be, and it hereby is, suspended effective October 11, 1943, until further order.

(d) The disposition by Standard Oil Company (New Jersey) of all the shares of Consolidated Natural Gas Company remaining in the possession of Standard Oil Company (New Jersey), after the distribution referred to in subparagraph (c) above, by reason of the payment of cash by Standard Oil Company (New Jersey) to its stockholders in lieu of the distribution of fractional shares of Consolidated Natural Gas Company.

It is further ordered, That within six months from the date of this order, unless additional time is granted by the Commission, Standard Oil Company (New Jersey) shall dispose of all shares of the \$15 par value common stock of Consolidated Natural Gas Company remaining in the hands of Standard Oil Company (New Jersey), after the distribution described above in subparagraph (c).

It is further ordered, That jurisdiction be and hereby is reserved with respect to the status of the holding company system of Consolidated Natural Gas Company under section 11 (b) of said Act, including the right to order Consolidated Natural Gas Company in any appropriate proceeding to take such action as may be required under that section.

CENTRAL STATES UTILITIES CORP., ET AL.

NOTICE OF FILING AND ORDER RECONVENING HEARING AND DIRECTING CONSOLIDATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 12th day of October, A. D. 1943.

In the matters of Central States Utilities Corporation, Central States Power & Light Corporation, Missouri Electric Power Company, and Ogden Corporation, File No. 54-42; Ogden Corporation and subsidiary companies, File No. 54-69; Ogden Corporation and subsidiary companies, File No. 59-65.

Ogden Corporation ("Ogden"), a registered holding company, together with its subsidiary holding company, Central States Utilities Corporation ("Central Utilities"), Central States Power & Light Corporation ("Central States"), a holding-operating company which is in turn a subsidiary of Central Utilities, and Missouri Electric Power Company ("Missouri Electric"), a wholly-owned subsidiary utility company of Central States, having heretofore filed an application and amendments thereto, pursuant to

section 11 (e) and other applicable sections of the Public Utility Holding Company Act of 1935 and the Rules promulgated thereunder, relating to a plan of liquidation of Central Utilities and Central States (File No. 54-42);

Hearings having been held with respect to such amended application and having been continued subject to call of the Trial Examiner;

The Commission, having entered an interim order dated December 1, 1942, approving, subject to certain terms and conditions, the sale of the assets of Missouri Electric to Sho-Me Power Cooperative, and conditional waiver by Ogden of interest on its holdings of the 5% Debentures of Central States, the dissolution of Missouri Electric, and the utilization of the proceeds of the sale of Missouri Electric's assets and certain other funds of Central States to retire a portion of, or make pro rata payments upon, Central States' First Mortgage and First Lien Gold Bonds, 5½% Series, due 1953, or both; and

The Commission, having entered an order dated May 20, 1943 approving a plan filed by Ogden Corporation and subsidiaries pursuant to section 11 (e) of the Act designed to enable that company and certain of its subsidiary companies to comply with the provisions of section 11 (b) of the Act, said plan providing for, among other things, the liquidation and dissolution of Central Utilities, Central States, and Missouri Electric, and ordering that the said companies take certain action to comply with the provisions of section 11 (b) (File Nos. 54-69 and 59-65);

Notice is hereby given that amendments to the aforesaid amended application (File No. 54-42) have been filed by Central Utilities, Central States, Missouri Electric, and Ogden pursuant to the applicable sections of the Act and the Rules promulgated thereunder requesting the Commission to enter an interim order approving the transactions proposed in said amendments.

All interested persons are referred to said amendments which are on file in the office of the Commission for a statement of the transactions proposed therein, which may be summarized as follows:

It is proposed to extend the maturity date of the 5% Debentures of Central States from January 1, 1944 to January 1, 1945. Such debentures are to continue to bear a 5% rate of interest and are to continue to be subject to the same terms and conditions of such Debentures and of the Debenture Agreement dated January 1, 1934 under which they were issued except for the extension in the maturity date of such issue.

Upon disposition of the remaining assets of Central States, consisting principally of the properties of Missouri Electric and the so-called "Iowa-Minnesota properties" owned directly by Central States, it is proposed to employ the proceeds therefrom to the payment of the principal of the outstanding First Mortgage and First Lien Gold Bonds, 5½% Series, due 1953, of Central States; the balance of such proceeds are to be distributed, together with any additional

assets of Central States, to the holders of the securities junior to the aforesaid 5½% Bonds in accordance with an amendment to be hereafter submitted for approval of this Commission.

The applicants request the Commission, if and when it enters an interim order approving the said amendments to its plan (File No. 54-42) to apply to a District Court of the United States in accordance with the provisions of section 18 (f) of the Act to enforce and carry out the terms and provisions of its plan, as amended, insofar as such amended plan provides for (1) the extension of the maturity date of Central States' 5% Debentures and (2) the use of the proceeds of the proposed sale of assets of Missouri Electric together with any other funds on deposit with the Trustee under the Trust Indenture of Central States' First Mortgage and First Lien Gold Bonds, 5½% Series, due 1953, to make pro rata payments on said 5½% Bonds.

The applicants state that Central States will be unable to consummate prior to the maturity date of said Debentures on January 1, 1944, the arrangements for the sale of its remaining assets; that although the proposed sale of the assets of Missouri Electric to Sho-Me Power Cooperative has been approved by the Missouri Public Service Commission by order dated October 4, 1943, said order containing a provision that it shall not become effective until thirty days after the date thereof, and has also been approved by this Commission, anticipated litigation by persons opposed to the said order of approval of the Missouri Public Service Commission may delay consummation of said sale; and that there is little expectation that Interstate Power Company, which intends to purchase Central States' "Iowa-Minnesota properties," will be in a position to acquire said properties prior to January 1, 1944, the maturity date of Central States' 5% Debentures.

The applicants further state that it is not believed that Central States will be able to pay or refund its outstanding 5% Debentures when they mature on January 1, 1944, and consequently, an extension of the maturity date of such Debentures will be necessary in order to enable Central States to liquidate in an orderly manner in accordance with the aforesaid plan of liquidation; that in the opinion of the applicants it will be in the best interests of all of the security holders of Central States to carry through such liquidation under the jurisdiction of this Commission and of the appropriate Federal Court as provided by the Act; and that the alternative would appear to be a forced liquidation in a bankruptcy court, which would result, in the opinion of the applicants, in sacrificing values to the detriment of investors' interests.

It appearing to the Commission that the hearing herein previously continued should be reconvened for the purpose of taking additional testimony necessitated by said amendments.

It further appearing to the Commission that the proceeding in respect to the Plan filed by Central Utilities, Cen-

tral States, Missouri Electric, and Ogden (File No. 54-42), and proceedings in respect to the Plan filed by Ogden Corporation and subsidiary companies pursuant to section 11 (e) of the Act (File No. 54-69), and the proceedings instituted by the Commission directed to Ogden Corporation and subsidiary companies, respondents, pursuant to sections 11 (b) (1), 11 (b) (2), 15 (f) and 20 (a) of the Act (File No. 59-65), involve common questions of law and fact and should be consolidated;

It is ordered, That such proceedings be and the same hereby are consolidated.

It is further ordered, That a hearing in respect to such consolidated proceedings under the applicable provisions of said Act and the rules promulgated thereunder be held on October 25, 1943 at 10:00 a. m., e. w. t., at the Offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in Room 318 may designate.

It is further ordered, That any person desiring to be heard in connection with these proceedings, or proposing to intervene herein shall file with the Secretary of the Commission on or before October 21, 1943, his request or application therefor, as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of the issues presented by said amendments, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether an extension of the maturity date of the 5% Debentures of Central States is necessary in order to effectuate the provisions of section 11 (b) of the Act and whether such extension in the manner proposed is fair and equitable to the persons affected thereby;

(2) Whether Central States has exercised due diligence in its efforts to arrange for, and consummate, the sale of its remaining assets;

(3) Whether it is necessary or appropriate in the public interest or for the protection of investors and consumers to impose any terms and conditions and, if so, what terms and conditions should be imposed.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to Central States Utilities Corporation, Central States Power & Light Corporation, Missouri Electric Power Company, Ogden Corporation, and Continental Illinois National Bank and Trust Company of Chicago, Trustee under the Trust Indenture of the aforesaid 5% Debentures, by registered mail; that notice of said hearing be given to

all other persons by publication of this order in the FEDERAL REGISTER; and that Central States Power & Light Corporation mail a copy of this notice of filing and order reconvening hearing to all known holders of its 5% Debentures.

By the Commission.

This proceeding is instituted pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 1940 ed. 181 *et seq.*), hereinafter referred to as the act, and the following allegations are made:

1. T. R. McKinley and K. M. Winter (hereinafter referred to as respondents) are partners engaged in the business of operating a stockyard at Dodge City, Kansas, known as the Winter Livestock

Commission Co., which has been found by the Secretary of Agriculture to be a "stockyard" within the meaning of that term as it is defined in the act, and notice of such finding has been given to the owner and to the public, as required by the act.

2. The respondents are partners doing business as McKinley-Winter Livestock Commission Co. and are registered under the act as a market agency. The respondents, as such market agency, are engaged in the business of furnishing stockyard services, in commerce, within the meaning of that term as it is defined in the act, at the stockyards known as the Winter Livestock Commission Co., located at Dodge City, Kansas.

3. Pursuant to the provisions of the act, the respondents have heretofore filed and put into effect schedules of rates and charges for facilities furnished and services rendered by them as owners of the stockyard and operators of the market agency referred to above.

4. Upon the basis of information in the possession of the War Food Administration, there is reason to believe that the tariff schedules now in effect contain rates and charges which are unreasonable and otherwise unlawful.

It is concluded that a proceeding should be instituted, under the provisions of the act, for the purpose of determining the reasonableness and lawfulness of all rates and charges of the respondents and of any rule, regulation or practice affecting said rates and charges, and

whether any stockyard service is rendered by the respondents without making a lawful charge therefor.

It is, therefore, ordered. That notice to the respondents shall be and it is hereby given that a hearing covering the matters and things alleged herein shall be held before an examiner at a time and place of which the respondents shall have at least ten days' notice. At such hearing the respondents and all other interested persons shall have a right to appear and to present such evidence with respect to the matters and things alleged as may be relevant and material.

It is further ordered. That any and all interested persons who may wish to appear and present evidence relative to the issues in this proceeding shall give notice thereof by filing a statement to that effect with the Hearing Clerk, Office of the Solicitor, Department of Agriculture, Washington 25, D. C., within twenty days from the date of the publication of this order.

It is further ordered. That a copy hereof shall be served upon the respondents by registered mail, and that this order shall be filed in the office of the Director of the Division of the Federal Register of the National Archives.

Done at Washington, D. C., this 11th day of October 1943.

C. W. KITCHEN,
Deputy Director
of Food Distribution.
